01 / EXPERTISE

Technical skills

Platforms & cloud

- OpenShift
- Kubernetes
- OpenStack
- AWS
- GCP
- VMware
- Hyper-V

Automation & DevOps

- Ansible / AAP
- Python
- Bash
- Terraform
- Jenkins
- GitOps

Systems & monitoring

- RHEL
- Windows Server
- Prometheus
- Grafana

02 / EDUCATION

Foundation

B.Tech, Mechanical Engineering
National Institute of Science & Technology, Berhampur
2017–2021

03 / CREDENTIALS

04 / EXPERIENCE

Professional experience

Jan 2021 – present Senior Technical Consultant / Cloud, Platform & DevOps Engineer

Prodevans Technologies · Bhubaneswar / client sites

- Deliver enterprise consulting across OpenShift/Kubernetes, OpenStack, Linux/Windows, automation, monitoring and DevOps environments.
- Perform cluster health checks, upgrade-readiness analysis, workload diagnostics, backup validation, capacity assessment, incident troubleshooting and post-change validation.
- Create SOPs, MOPs, RCAs, audit reports, implementation and rollback plans; coordinate with OEM, application, network and security teams.
- At Odisha State Data Centre, supported OpenShift lifecycle planning, backup and evidence workflows, OpenStack audits and multi-day infrastructure health reporting.

Concurrent Chief Executive Officer

ProLEAP Academy

- Lead job-oriented technical-skilling initiatives and personally teach Python BootCamp, DevSecOps – The One, and Technical Documentation.
- Design practical roadmaps, labs, capstones and live troubleshooting sessions focused on demonstrable, portfolio-ready outcomes.

Concurrent Chief Business Officer

PDCloudEX

- Support cloud-platform positioning, customer and partner communication, solution enablement and business-technical coordination.

05 / CAPABILITIES

Engineering areas

Container platforms OpenShift · Kubernetes · Docker · Podman · Helm	Cloud & virtualization AWS · GCP · OpenStack · VMware · Hyper-V
Automation & IaC Ansible · AAP / AWX · Python · Bash · Terraform	CI/CD & source control Git · GitHub · GitLab · Jenkins · GitOps
Systems & infrastructure RHEL · Ubuntu · Windows Server · DNS · Networking	Observability Prometheus · Grafana · Zabbix · Dynatrace · Harbor
Data automation Excel · openpyxl	

06 / WORKING STYLE

Documentation & delivery

- Evidence-first troubleshooting with impact assessment, rollback planning, controlled execution and post-change validation.
- SOPs, MOPs, RCAs, operational audits, architecture diagrams and decision-ready health/utilization reports.
- Clear coordination across application, platform, network, security and vendor teams.
- Automation-first execution that preserves auditability, repeatability and safe ownership boundaries.
