Professional experience

Senior Technical Consultant / Cloud, Platform & DevOps Engineer

Jan 2021 – present

Prodevans Technologies · Bhubaneswar / client sites

- Deliver enterprise consulting across OpenShift/Kubernetes, OpenStack, Linux/Windows, automation, monitoring and DevOps environments.
- Perform cluster health checks, upgrade-readiness analysis, workload diagnostics, backup validation, capacity assessment, incident troubleshooting and post-change validation.
- Create SOPs, MOPs, RCAs, audit reports, implementation and rollback plans; coordinate with OEM, application, network and security teams.
- At Odisha State Data Centre, supported OpenShift lifecycle planning, backup and evidence workflows, OpenStack audits and multi-day infrastructure health reporting.

Chief Executive Officer

Concurrent

ProLEAP Academy

- Lead job-oriented technical-skilling initiatives and personally teach Python, DevOps and technical documentation.
- Design practical roadmaps, labs, capstones and live troubleshooting sessions focused on demonstrable, portfolio-ready outcomes.

Chief Business Officer

Concurrent

PDCloudEX

- Support cloud-platform positioning, customer and partner communication, solution enablement and business-technical coordination.

Engineering capabilities

Platforms & cloud	Automation & DevOps	Systems & monitoring	Delivery & registries
OpenShift Kubernetes	Ansible / AAP Python	RHEL Windows Server	Git GitHub GitLab
OpenStack AWS GCP	Bash Terraform Jenkins	Prometheus Grafana	Harbor
VMware Hyper-V	GitOps	DNS Basic networking	

Documentation & delivery style

- Evidence-first troubleshooting with impact assessment, rollback planning, controlled execution and post-change validation.
- SOPs, MOPs, RCAs, operational audits, architecture diagrams and decision-ready health/utilization reports.
- Clear coordination across application, platform, network, security and vendor teams.
- Automation-first execution that preserves auditability, repeatability and safe ownership boundaries.
